Gavin Vance (Assistant Lake Stewardship Coordinator, FOCA)

“In the program’s 26th year there were over 500 data points collected by lake stewards. We also noted an increase in program popularity, as the number of LPP volunteers increased for the 3rd year in a row.

We would like to extend a big thank you to all of you for contributing data to this provincial dataset.

In 2023, the program made efforts to enhance outreach and enhance communication with the public about lake stewardship. For example, Gavin attended several FOCA public meetings and other water monitoring events where he was able to meet face-to-face with volunteers. An article on the LPP appeared in FOCA’s Ontario Lake Stewards Magazine, which highlighted some of the interesting experiences the Lake Partner volunteers have had while collecting water samples.
