

## 2024 Mid-Summer Update

Can't say we weren't warned:  
TSW/CEWF [~2021]: Expect  
warmer wetter winters; hotter,  
drier summers; more extreme  
events.

Same source  
forecasts the lake  
level to drop  
'sooner' than  
usual, as there is  
no significant rain  
in forecast. Since  
July 1<sup>st</sup> we have  
had about half the  
'normal' rainfall.  
And, the recent  
52h Hydro1  
outage would  
count as one of

those extreme events.

However, the falling lake level also translates to more beach sooner at the Spit. But, those near-surface rocks and stumps will be a hazard sooner too.

Ted Mills noted at the latest BoD meeting that Dysart just let the contract for road-side brush clearing and Percy seems to have been done first.  
In other roads news, the Province's work on #35 north of Minden has significant delays during the week.

Reminder to take pic/measure for youth fishing entries (for 2024 we only had one entry; if your (grand)son/daughter had entered....)

According to Cottage Life, an individual kayaking on Crowe Lake was charged and fined for not having the required safety equipment. The incident took place near Marmora off Highway 7.

Anyone noticed OPP boat on the lake this year?

And of course, a membership fee reminder. [to enter Bass Tournament, vote at AGM, Golf tournament]
